

Kill the Kell - 20 & 20 Stories

“20 & 20 Stories” is a compound of songs from Kill the Kell, which can be the best way to describe the hard work of this project during the period of 2012 – 2020.

Kill the Kell wants to thank all the supporters in any way along this tough way.

All this music was never meant to make it for money, but for the pleasure and satisfaction of giving the best that *Damian Silva* could ever offered.

Hopefully, It could positively influenced on those who were interested in the project.

Everything was just an intention to make you think, to make you feel human, and to turn this huge crazy world into a better thing. At the end, this was just a trip.
